

Yet another purpose is the promotion of unsupported “*conspiracy theories*”<sup>25</sup> to distract

*“Ignoring basic, fundamental tenets of scientific reasoning and analysis, the [Wood/Reynolds] paper [The Star Wars Beam Weapon] <sup>30</sup> forges ahead with a ‘scientific’ analysis that is based on admittedly corrupted and untrustworthy seismic data. The WR paper acknowledges it is using faulty (even possibly manufactured) data*

[Jim Fetzer:] *“The fifth level of disinformation **appears to occur when a source presents information that has been deliberately selected to misrepresent, distort or abuse sources***

[Judy Wood:] “*The two photographs below show glowing metal pouring from a furnace.* **We cannot tell what kinds of metals these are without additional information.**”<sup>42</sup>

[Brian Vasquez:] “***This is very misleading!***”

10. “Since he is no video expert, the **clueless** professor might ask himself if the

- [Judy Wood:] “

[Morgan Reynolds:] “*The Pentagon aircraft supposedly put on a stunt show... [The plane  
downed] a few lamp posts on the highway... [this is] **physically impossible.***”

*the potential of proving the hypothesis wrong. If an hypothesis is not falsifiable by experiments, it is not scientific.*"<sup>110</sup>

**Examples #30-33:**

*Non-falsifiable* theories include:

- 30.** Directed energy weapons were used to destroy or partially destroy the World Trade Center Buildings.
- 31.**
